I was driving on the highway	C
In my Buick 48	F
With the girl	C
I love the most by my side	G
Looking in my mirror I see	C
A car is catching up	F
A convertible	C
so beautiful to ride	G C
Cruising downtown	Dm
The neon light has never looked so bright	Am Em F G
The engine's hot the beer is cold	C
Your lips are warm I hold	F
you tight until you make me fall	C F
And the radio playing old time rock'n roll	G F C C7
Driving up the streets of town	C
In my Buick 48	F
I adore	C
Listen to your whispering in my ears	G
That you love my type of Buick	C
And will always ride with me	F
As long as	C
I never cheat on you	G C
Cruising downtown	Dm
The summer night affecting what to feel	Am Em F G
And when we stop for hot red light	C
The bass plays bop feels alright	F
Hold you tight you make me fall	C F
And the radio playing old time rock'n roll	G F C C7
Driving out of town catching	C
Highway twenty-two	F
With the girl	C
I love the most by my side	G
We could drive that way forever	C
Sitting close together	F
Engine's singing	C
And the wheels are tuning in	G C
Cruising downtown	Dm
Softly with your arm around my neck	Am Em F G
And when we hold where drinks are sold	C
I'll buy you some and chewing gum	F
And we go along until you make me fall	C F
And the radio playing old time rock'n roll	G F C C7
