

## Dark Night

Who's the one to trust  
In the smoke and dust

He's running down the street  
Needs a place to hide  
Sheltered from the heat  
Putting facts aside

Running down the road  
The world is open wide  
Who has got the code  
Who's the one that lied

In the dark night  
It was too tight  
A big fight  
And blue light  
But it's all right

When you come to an end  
Meeting up with friends  
Feeling out of sense  
Pictured through a lens

Feeling insecure  
Friends are there for sure  
But who's to trust  
In the smoke and dust

When you come to an end  
Meeting up with friends  
Who's to trust  
In the smoke and dust  
When you're on a mission  
like this  
When you're on a mission  
like this

Dark Night  
Too tight  
Big fight  
Blue light  
It's all right

And it's hard to be a hero  
When you got no superpower
